Faculty of Medicine

[...]

III. Full-time long-cycle studies – studies in English

Study programme: Medicine

1) Preliminary requirements

Application process is open to candidates who hold the following:

- a) a secondary school leaving certificate or an equivalent document entitling the holder to apply to study at any type of higher education institution in accordance with applicable regulations in force in the country of issue,
- b) two subjects listed in their secondary school leaving certificate:
 - biology,
 - chemistry or physics.

2) Qualification procedure

Candidates are qualified on the basis of an entry examination which consists of two stages:

- 1) first stage – a **written test** held in English*
- 2) second stage – an **oral examination** held in English**

*The written test in English evaluates the knowledge of and ability to use specialised terminology in the scope of biology, chemistry and physics.

The test is evaluated using the scale of 0 to 50 points.

The necessary condition for being admitted to the second stage of the qualification procedure is obtaining a minimum of 25 points for the written test.

**The oral examination in English evaluates the following:

- the candidate's proficiency in English (max. 25 points),
- knowledge in the field of natural and exact sciences (max. 25 points),
- the candidate's motivation and predispositions to study Medicine (max. 25 points).

The oral examination is evaluated using the scale of 0 to 75 points.

The result of the qualification procedure (W) is calculated using the formula:

$$W = \frac{w1}{2} + W2$$

2

where:

W1 – number of points for the test,

W2 – number of points for the oral examination.

A minimum of 70 points must be obtained in the admission process in order to become admitted to the study programme.
